

# Hexbot Compiler File Processing

## Script file

## MQTT.fx file

## Sent to robot

### Text colour codes:

Script file created by user

Lines created by compiler at run time

Text from template file

Either from template file or added by compiler at run time

From translation of script commands

Sent to hexbot via MQTT commands

```

action.setExitCode(0);
action.setResultText("done.");
out("Parameter parameter set up... return
action;
}
function send(cmd){
mqttManager.publish(myTWIPe, cmd);
Thread.sleep(200);
}
function out(message){
output.print(message);
}
    
```
